We continually strive to be a respected and trusted organisation where everyone feels safe to participate in all our activities and our cadets and adults understand their right to be-protected from all forms of harm.’

## **4. Legal Framework**

Each UK nation is responsible for its own policies and laws. These cover most aspects of safeguarding and child protection, please refer to Appendix 1 for more details. Although safeguarding systems in each nation may differ in some detail, they are all based on similar principles and the related statutory guidance stipulates what each organisation should do to ensure the wellbeing and safety of children, young people and vulnerable adults.

This policy is in line with the legal requirements and statutory guidance<sup>2</sup> of England, Northern Ireland, Scotland and Wales. MSSC supports the principles outlined in relevant legislation and believes that safeguarding children, young people and vulnerable adults is everyone’s business.

## **8. Procedures and practice**

MSSC has clearly defined procedures for identifying what constitutes safe practice and what action must be taken when there are safeguarding concerns about actual or suspected incidents or abuse.

There are procedures in place for taking action when allegations are made against adults who work with or on behalf of children, young people and vulnerable adults although the underpinning principles remain the same. These are outlined in the following documents:

- a) How to safeguard and protect children and young people from harm
- b) How to safeguard and protect vulnerable adults

The charity has procedures in place for reporting, recording and reviewing all accidents, and safeguarding incidents which informs practice and risk assessment management protocols.

## **10. Code of conduct**

All adults working in either a paid or voluntary capacity within the MSSC are required to adhere to specific codes of conduct where contact with children, young people and vulnerable adults are concerned.

Such codes of behavior are intended to safeguard the well-being of children, young people and vulnerable adults but they also provide some protection to employees and volunteers whose own vulnerability, in some situations is recognised. These codes are captured in the MSSC Guidance for Safe Practice document, May 2018.

## **11. Records and record keeping**

Well kept records are essential in situations where it is suspected or believed that a child, young person or a vulnerable adult may be at risk of harm.

MSSC has a clear policy on the management of records, managing confidentiality and sharing information. There is an expectation of confidentiality in the recording, use and management of personal information. Management and staff are clear about what information can be shared with relevant people within and outside of the organisation.

All units ensure that effective systems are in place for the recording and maintenance of safeguarding records. These records will be kept in a secure place separate from all other records pertaining to the child/family/adult.

## **12. Recruitment and selection of staff**

The growing awareness of the possibility of abuse by people in positions of trust and the increased understanding of the vulnerability of children, young people and vulnerable adults highlight the need for careful recruitment and selection of employees and volunteers. We take every precaution to ensure sound and thorough vetting procedures for anyone who works with or on behalf of MSSC.

The charity consistently applies a thorough and clearly defined method of recruiting employees, volunteers, sessional, seasonal and contractors in line with best practice. This ensures that all individuals, whatever their role are both competent and safe to work for our organisation.
